EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Wilson on August 17, 2005.

The application has been amended as follows:

Claim 56 has been cancelled.

Allowable Subject Matter

2. Claim 1, 4-9, 17-31, 33-41, 43-48, 50-55 and 57 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method of optimally accessing a memory unit based on the number of pending read request of a memory channel. The closest prior art Chen et al. (US 6,415,366) teaches optimally accessing a memory unit based on the level of data stored in each bank. Chen, however, fails to teach accessing memory unit based on the number of pending read request of the memory channels. These features are claimed in the independent claims and render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
